<u>**INSTRUCTION NO. 06 of 2015**</u>

No. IFA/300   Dated :-15.07.2015

To

    All Navy IFAs/PIFA

    (Dedicated & Nominated)

Sub: <u>Repair of Transportation; Clarification reg.</u>

    A doubt has been raised by one of the IFA regarding obtaining of NAC/No Capacity Certificate from Depot/Dependant Transport workshop for repairs below Rs. 5,000/- as per Ser No. 31 of NI 1/S/06, after issuance of DFPDS-2015.

2.   The issue has been examined in consultation with MoD (Fin) and it is clarified by the MoD (Fin) that the earlier restriction given in SI 31 of NI/S/06 stands superceded. With the introduction of new categories of vehicles in large scale and changes in technology in transportation sector, the mechanism of getting every repair through in-house facilities will no longer be feasible. Accordingly, it has been decided that it should be left to the CFA concerned to get the repairs done either through outside agencies or through their repair agencies, depending upon the facilities available with the CFA themseleves or with the nearest transport workshop. Any requirement of necessarily taking NAC from Transport workshops will cause severe operational constraints. This premise was accepted and promulgated in DFPDS-2015 accordingly in regard to repairs of transport vehicles.

For IFA (ENC)Visakhapatnam: This disposes your letter No. IFA/129/Hqrs / Vol.XII dated 08.06.2015.
