No. IT&S/962/GeM   Dated:27.07.2017

To,

The PCsDA/CsDA

(As per list)

Sub: GeM implementation – API regarding.

The process of implementation of GeM in the department is under progress. A point to point lease line between GeM server and WAN network is being established in HQrs office and the process will be completed very soon. IT&SDC, Secunderabad has developed API which will be deployed in an intermediate server at HQrs office to fetch bill data from GeM server for pushing into Project 'Tulip' and to upload the payment data from 'Tulip' to GeM Server through the intermediate server. Tulip has also been customised/amended for audit and payment of GeM procurement bills in soft format.

As Project 'Tulip' is not implemented in your office, it is requested that necessary changes may be made in Office Automation software implemented in your office so that GeM procurement bills in soft format can be received for audit & payment and payment information can be pushed back to GeM server through API installed in intermediate server at HQrs office. You are also requested to liaise with IT&SDC, Secunderabad for any clarification and help regarding integration with API.

Higher Authorities has desired that the ibid process may be completed by 30th September, 2017. For any query/clarification in the matter, IT&SDC, Secunderabad may please be approached.

This has approval of Addl. CGDA(IT).

(Arvind Wani)
Dy. CGDA (IT&S)
